brother is studying for the same profession. Thank God all the children have natural talent, which I trust will enable them to make a respectable appearance in the world.

Now that I am sure that James Speed received my portrait, intended for his mother, I shall not hesitate in requesting him to send me the paintings of George and Tom in return.

I will send the Catalogue when due.

With kindest remembrances to your wife. Believe me to remain

Yours very sincerely

My dear Mr Forman

Excuse my having delayed so long the Certificate; but since the 5th the weather has been so unfavorable until today, that I have not been able to go to the Consulate to have it signed. An "Illustrated London News" which was lent to me, has been partly burned, and I am not able to find here a single number. Can you obtain one for me? The number of March 29th I am indeed very sorry to trouble you, for whenever I write, I am always annoying you with some private commission

Give our Kind remembrances to all, and Believe me to remain

Yours very sincerely
